Wheel Fun Rentals Opens New Outlet in Berkeley Park

(Denver Colorado) When you hear the name Wheel Fun Rentals, it may not bring to mind pedal boats, kayaks and canoes, but that is precisely what they are renting at the newest franchise location in Berkeley Park. Some are built for pedaling, some for sailing, but they are all user friendly and great for some splashing fun. Or maybe you just need a place to cool off and get relief from the heat of summer?

Wheel Fun Rentals in Berkeley Park has new pedal boats and new Hobie Kayaks with optional sails (single and double capacity)! If you use it in or around the water, it seems Hobie has already made it and then made it better.

Ever considered sailing, but weren't sure if you knew how? Here's how it works: Hobie's new step (pedal) kayak drives two underwater fins that work much like a penguin's flippers, propelling the kayak with surprising speed and ease. It's quiet, dry (no more dripping paddles) and leaves your hands free for hydration, fishing, photography or sailing.

And here is where the excitement really takes off. We have these kayaks equipped with sails! Attach a sail and what else do you need to propel you through the water? And with multiple ways to propel, you don't have to rely exclusively on the sail, so everybody can easily learn to sail. One and two person models available and the movable seat mount can be adapted to fit paddlers from age six to eighty.

And talk about steering! Say goodbye to the paddle sweep and hello to finger-tip control. The Mirage steering system is conveniently positioned at arm's length and allows instant control of the kick-up rudder. This is kayaking's first major design change in over 300 years!

The Hobie Kayak Sport – Here's a boat that can adjust to your every need and size. Pedal it, paddle it or sail it. Talk about convenience and versatility!

OR

The Outfitter – a sailing kayak built for two! Great for a partner but also perfect for the solo user, the Outfitter was designed so everything you need is precisely where you want it: handles, hatches, cup holders, rod holders and more. With its innovative design features, the Mirage Outfitter is the kayak everyone has been asking for. Have a great time with your favorite friend or sail solo on the Hobie Outfitter.

#####

Get ready to land right in the middle of fun yourself when you go to Wheel Fun Rentals newest franchise location at 4601 W. 46th Street Denver, CO. 80212. To find additional WFR outlets, products, hours and other general information, please visit www.wheelfunrentals.com.

We also have locations in [Denver Washington Park](#) and [Denver - City Park](#). Not all products are available in all locations. We'd be happy to arrange VIP press passes if you're interested in riding some of our products. Wheel Fun Rentals welcomes people with disabilities and provides free rentals to all Big Brothers Big Sisters matches.
